

Creator of all things,
Your greatness is seen
In the diversity of creation,
Whose myriad different elements
Join together to hymn your praise.

Help us to listen to creation's song,
And to perceive the distinctive beauty of each note.
Guide us, so that our words and our actions
May respect and preserve
Our fellow creatures and the common home we share,
Bringing us into harmony
With each other and all of nature
For the good of all
And the glory of your Name.

Amen
